Over 4,000 parents and educators across the country have attended the ***“Practical Solutions for Educating Students with Down Syndrome”*** workshop. Designed to help you understand how to successfully engage, instruct and enjoy your student with Down syndrome, this workshop will provide an overview of the specific learning needs characteristic of students with Down syndrome. Tips, strategies and solutions relevant to pre-school through high school will be covered. Attendees will learn:

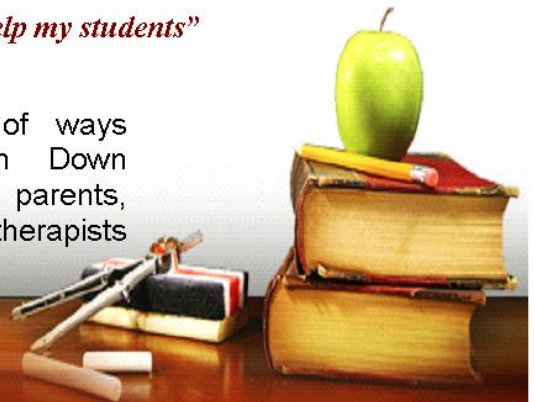

- How to open the lines of communication
- Ways to promote independence
- Environmental factors which promote success
- Effective home/school partnership techniques
- Various community resources
- Behavior modification strategies
- Alternatives to reward systems
- How to promote friendships
- Effective IEP goals
- Health issues affecting learning

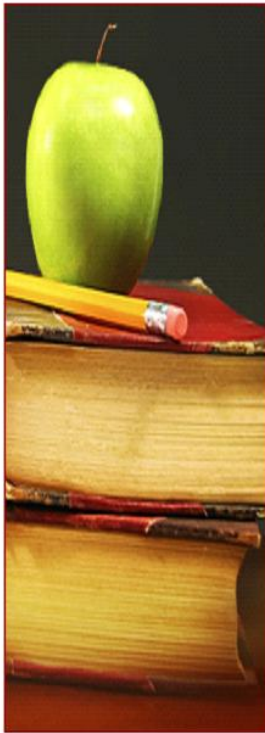

***“I wish I attended this workshop 10 years ago when I began working with students who have Down syndrome”***

***“The strategies I learned will work with students who have other disabilities also”***

***“I have ten new ideas I can’t wait to try to help my students”***

Workshop attendees will obtain a better understanding of ways to effectively support and include their student with Down syndrome. This workshop is appropriate for ALL educators, parents, family members, paraprofessionals, medical professionals, and therapists who interact with students who have Down syndrome.

## What are parents and educators saying about Practical Solutions?

I wish every educator working with a student with Down syndrome would attend this training!

*I learned A LOT of great techniques which will help me be a better parent.*

This seminar was FABULOUS! More people need to hear this information!

*I will recommend this seminar to colleagues who work with students who have Down syndrome.*

I came to this training because it was mandatory. I left wishing it was mandatory for everyone who teaches in my district.

*I really enjoyed the speaker. Her stories and tips really helped emphasize how I can change my behavior in working with students who have Down syndrome.*

Thank you for this wonderful seminar. As a para professional I have been to many trainings. None of them compared to the great information I got today.

*Thank you for all the helpful information presented today. I needed this!*
